**aa** - identifies the major subject matter heading.

**bb** - identifies any sub-headings within a subject matter, if there are any. If there is none, 00 will be here.

**ccc\_** - identifies the tape number within that subject matter heading or sub-heading, whichever applies. If there is a character in the \_, there are multiple copies of this tape and they are labeled A,B,C,etc.

**/dd** - identifies, as best as can be determined, the date the video was produced or the date the video was acquired by the 4-H lending library. If there is an un, this signifies that the date was unknown and that this tape was acquired prior to November 1994 (the date this list was compiled).
